Grade R to Grade 3

new

The **Smart-Kids Read! Picture Dictionary** has been created specifically for South African children. It has been designed by South African education specialists to introduce children to key, age-appropriate word sets within appropriate, familiar contexts. The beautiful, colourful illustrations and fun educational activities will grow a child's vocabulary and make learning fun.

The dictionary has two main sections:

- The first section has beautifully illustrated everyday scenes with word labels according to each theme. Along the top of each page are activities which develop the child's word recognition, concept association and counting skills
- The second section has an alphabetical list of all the words in the first section and more

Honey.

The Bone.

The Sock.

Each page has three icons:

This icon reminds the child to find Stinky's bone. Let your child practise using prepositions by asking her to explain where the bone can be found.

This icon reminds the child to see what Honey is doing. This encourages him to use verbs. Make sure he uses a full sentence, starting with "Honey is ..."

This icon reminds the child to find the sock in the scene. Again, she should use prepositions to explain where the sock can be found.

The word list has been designed to support the words used in the Smart-Kids Read! series.

The alphabet that borders the bottom of this section is in upper and lower case to enable quick and easy referencing.
