Introducing Vuma

Vuma is a carefully levelled, South African reading instruction programme that will inspire a love of reading from an early age. The programme will enable teachers to assess, monitor and support reading and comprehension progress easily and effectively.

The Vuma programme is available in Afrikaans, isiXhosa, isiZulu and Sepedi Home Languages, as well as English First Additional Language.

Why choose Vuma?

The **Vuma** Programme features:

- enjoyable characters
- structured word lists
- careful levelling
- stories with strong visual cues
- no translations

Each story has been carefully planned and written in the language in which it is published so that the natural patterns and rich expression inherent in each language is captured.

We have worked closely with schools and teachers across South Africa to ensure that **Vuma** provides learners and teachers with the tools required to improve reading with understanding.

Vuma reading levels

The **Vuma** reading instruction programme is divided into twelve reading levels.

The number of books and resources at each level gives learners enough practice to consolidate what they have learnt before moving on to the next level.

The increase in complexity from one level to the next is very gradual so that learners are able to experience success and remain motivated to continue reading.

Each level is defined by:

- the number of words or sentences
- the types and complexity of language structures and artwork
- the text features and the predictability of the text.

The levels will help you to match each learner to the correct level to build their vocabulary, grammatical understanding, confidence and enjoyment when reading.

Developing reading strategies

CAPS recommend a variety of reading strategies that learners need to develop through focusing on different aspects of the reading process.

These reading strategies are listed in the table below, together with the ways in which they are included in the **Vuma** Reading Instruction Programme.

Different aspects of the reading process	Vuma Reading Instruction Programme
Developing learners' phonemic awareness and phonetic knowledge (phonics)	Vuma Workbook activities offer the learners opportunities to develop their phonemic awareness and phonetic knowledge. Where appropriate, activities included in the Group guided reading lessons also offer these opportunities.
Developing a sight vocabulary	New words are introduced in each Vuma Reader and then used again in later readers for reinforcement. The more learners come across a word used in context, the quicker it becomes part of their sight vocabulary. The Context Cards and Workbook activities also help to develop the learners' sight vocabulary.
Reading with understanding (comprehension)	The Readers in the Vuma Reading Instruction Programme use story texts at first and then add information books later. The readers have been developed to tell a story or to communicate information.
Completing literacy activities that are based on the books that the learners read	Each Workbook activity provides reading practice, often together with other literacy activities such as drawing, writing, handwriting, vocabulary development and phonics. The Lessons Plans also offer other literacy activities related to the readers.

Discover the Vuma Range

The **Vuma** reading instruction programme is a comprehensive range of books and resources, designed to work together to help learners progress through each level and become confident readers.

Readers

The South African characters and settings in **Vuma** will engage your young learners with rich storytelling they can really relate to.

Each reader begins with a **new word table** and **pre-reading questions** to introduce new concepts, and ends with **closed and open-ended questions** about the story to develop and assess learners' understanding and comprehension skills. The storylines and language structures increase gradually in complexity from one level to the next.

Big Books

The **Vuma** Big Books have the same text and illustrations as the Readers. The questions on the outside back cover can be used during Group Guided or Shared Reading lessons.

Workbooks

The levelled **Vuma** Workbooks give your learners further reading practice to ensure that they develop essential reading skills, good sight vocabulary and appropriate phonic knowledge.

Alphabet Frieze

The **Vuma** Alphabet Frieze helps learners recognise the sounds that correspond with each letter in the alphabet. **For Grade 1-2.**

Context Cards

The **Vuma** Context Cards are ideal for developing sight vocabulary. These double-sided cards feature the word, a drawing of the concept and a sentence.

Available for Levels 1-8.

Audio Stories

Narrated by professional South African storytellers, the **Vuma** Audio Stories CDs include all the stories within a level. This resource has been developed to help with pronunciation and intonation.

Available for Levels 1-8 English FAL.

Posters

A set of 11 full-colour **Vuma** posters introduces the characters and their homes. Children can learn about, and relate to the diverse South African characters and environments in a fun way.
